

Novo Marquês de Abrantes

Vista Alegre workshop with IED

Johanna Tammsalu

The inspiration

The inspiration came from the beauty and historic importance of the table set from Vista Alegre.

In 1846, Marquês de Abrantes was the very first Noble family in Portugal to receive a personalised table set. The set included around 300 pieces, which are to date, showing up in auctions all around the world.

The details

As the Marqués de Abrantes family set is very rich and oppulent I decided to choose only a couple of elements to be applied on the new modern shapes like Trasso.

A detail from the Tureen

A detail from the dinner plate

A detail from the edge of the plates

A lead knob from the Tureen

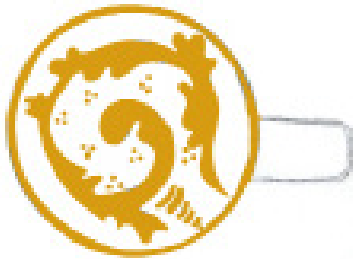

A detail from the tea cup

Grayish Blue

The coffee cups are simple and understated on the outside with a thin golden lining. The inside is decorated with a detail from the Marqués de Abrantes family set which is only revealed at the bottom of the cup once the beverage it holds is drank.

The surface of the decoration has been scratched of slightly to give the feeling of old like on the original Marqués de Abrantes piece.
