

Small Solid Spin Lamps

2016

LUGU

Väikesed Solid Spin lambid on loodud klientide vajadusi arvestades, kelle elamisse esimesed kermaallised lambid jäid liiga suureks.

Solid Spin lambid sündisid läbi katsetuste, keerutades igapäevaseid asju: nagu kingad, prillid, raamatud, tassid, puldid ja mitmed muud. Mind huvitasid kujundid, uudsed vormid, mis sünnivad neid objekte keerutades.

Tegin pika säriaajaga pilte ja videosid, et pöörlemisel tekkivat kujundit kinni püüda ja jäädvustada. Järgmiseks vaatasin, mis juhtub, kui pööran samu esemeid esemeid iseenda keskpunkti ümber. Testisin objekte eraldi ja gruppides, üksteise otsa laotult. Tulemused olid huvitavad ja võimalused lõputud.

THE STORY

The Small Solid Spin Lamp collection was created as a request from many clients who wanted a smaller alternative to the original ceramic lamps.

The Solid Spin Lamp collection grew out of series of experiments made with everyday objects; shoes, reading glasses, books, mugs, jugs, forks, etc. I was fascinated with the strength of solid shapes and decided to look for new substance by spinning objects around their own axis. I tested objects by themselves and also in groups where they were stacked on top of each other. This resulted in endless possibilities for solid, captivating, revolutionary shapes with a soothing outer detail and unique individual character.

Tehnilised detailid

Technical details

Marerjalid

Materials

Kuppel (shade): Keraamika (ceramic)

Mõõdud

Sizes

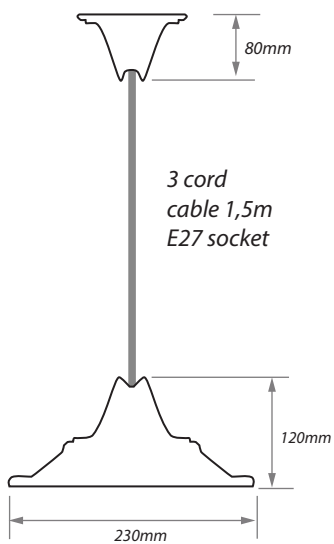

Kõrgus (height): 60cm

Laius (base diameter): 23-35cm

Tootmine koostöös Bosaga

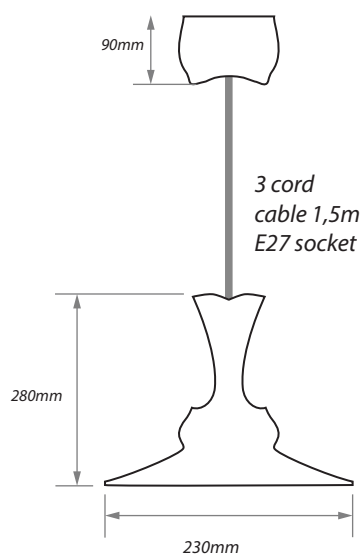

Production with Bosa

A Small Lamp
Pendent - Keys v2

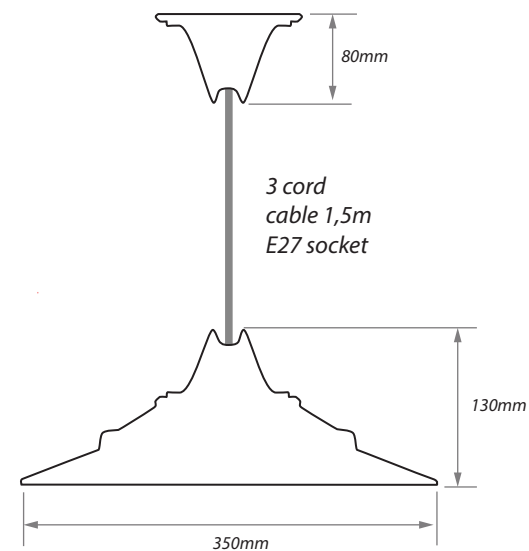

Weight 1,3kg

B Small Lamp
Pendent - Shoes v2

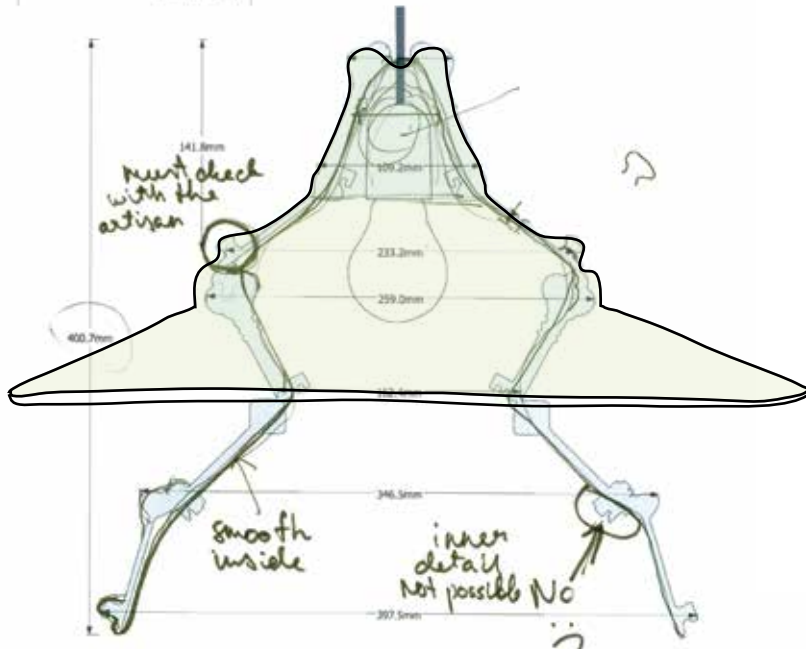

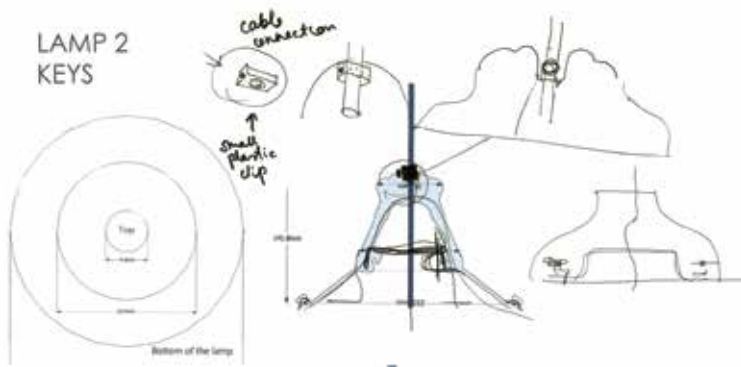

Weight 1,3kg

C Medium Lamp
Pendent - Keys v3

Weight 1,9kg

LAMP 2 KEYS

WOMAN SHOES
