

# VURLE

2018

Vurle on kaarditasku, mis on loodud kompaktsust hindavale kasutajale. Seejuures ei ole aga ohverdatud funktsionaalsust, sest lisaks kaheksale kaardile saab Vurle kaarditasku laekas hoida ka sularaha ning sente. Peidetud boonusena on kaarditaskule lisatud pudeliavaja. Materjalideks on puit ja roostevaba teras, mis oma kvaliteediga peegeldavad kasutajate väärtusi ning eristub sellega tavaliste rahakottide turul.

*Vurle is a cardholder for the ones who appreciate a compact wallet. Never the less any functionality is being sacrificed as Vurle can hold up to eight cards. Also it has a compartment for some cash and cents. An added bonus is a bottle opener. Wood and stainless steel will give the feeling of quality to it and will help to differentiate on the wallet market.*
